<u>Country Info</u>

Central Asia

Modern and secular. They were open to relationships, learning English, and curious about us as Americans and Christians.

Main religions - Muslim and non-evangelical.

Young population – about half the population is under the age of 30

The U.S. Department of State classifies this country, at Level 1: Exercise Normal Precautions, which is the lowest and safest tier on its travel advisory scale

Considerations:

Students may travel with local partners in small groups and possibly using public transportation

To protect the local believers and ministry, we will keep communication focused with parents semi-regularly, but there won't be any blog updates to follow.
